HOW FIREBOZZ[®] WORKS

PROJECTION OF WATER OVER A MASSIVE AREA

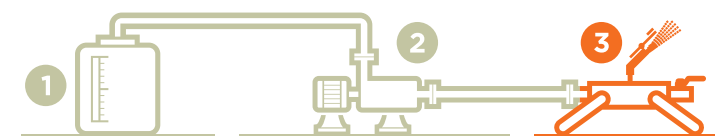

INJECTION OF VAPOUR INTO THE ATMOSPHERE TO CREATE A HUMIDITY BUBBLE

Fire can only spread through heat. Remove heat - remove the fire.

Firebozz[®] mobile wildfire protection trailer goes directly to any fire on the roughest roads, rapidly establishing a wetline that is from 200+ ft wide and 1000+ ft long. The smallest person-packable sprinkler system shooting the furthest distance. Immediate, mobile structural protection.

Create Defensible Space with Water

- 1 Water Supply
- 2 Water Transport
- 3 Dispersal and Coverage Protection

ULTIMATE PROTECTION FOR...

Home Owner Associations

Firebozz® mobile wildfire protection trailer goes directly to any fire on the roughest roads, rapidly establishing a wetline that is from 200+ ft wide and 1000+ ft long. The smallest person-packable sprinkler system shooting the furthest distance. Immediate, mobile structural protection.

Resort Homes & Communities

Your resort home is often in the middle of Wildland Urban Interface fire threats. Your house is only one of the things you want to protect to make your time in the outdoors so valuable. Trees and landscaping are also part of what makes your vacation house.

Residential Construction Applications

Local authorities, Fire Departments and Insurance Companies are now often requiring wildland fire defense while building homes in the Wildland Urban Interface during high wildfire risk. The **Firebozz**® wildland fire Typhoon trailer allows a wide range of options for wildfire defense. Starting with the pickup-bed sized trailer there are modular defense options. The standard Typhoon trailer can provide up to 1000 feet of sprinkler wet-line protection. With your water source already determined the trailer options are turn-key. Pump, sprinkler units, water storage tanks, hose adaptors and a tool-box. You can add as you wish for even more protection. **Firebozz**® trailers allow contractors to build during times of elevated wildfire risk. Rapid, light, mobile, and the multi-configurable they are a perfect solution for contractors working on construction projects in the WUI.

FireBozz Inc.
245 Pine Street, Nanaimo BC, V9R 2B7 Canada
T. 1-250-713-5226 | info@firebozz.com

A firefighter in full gear, including a helmet and a large air tank on their back, stands on a dirt road. The road is flanked by tall grass, and a large fire is burning in the background, creating a thick plume of orange smoke. The scene is lit with a warm, orange glow.
